

# Environment

**Hutchies operates within the construction industry and is committed to the delivery of construction activities through environmentally responsible practices from inception to completion.**

The leadership team recognises the importance of minimising our impact on the environment, to the extent to which we can control.

We demonstrate this commitment by:

- Considering the needs and expectations of interested parties, and complying with all relevant statutory obligations, codes, standards, and contractual requirements
- Establishing environmental objectives in alignment with strategic direction, project risk, and industry best practice
- Understanding the exposure to environmental risk at each phase of a project, and implementing processes and procedures to identify, prevent, and mitigate undesirable environmental impacts
- Applying the appropriate evaluation techniques for enhancing continual improvement, with the benefit of learnings from historical challenges

This Environmental Policy will be communicated to all persons working on behalf of Hutchies to provide an understanding of the environmental objectives of the business.
